

Louise Jordan

Technical requirements

Louise Jordan performs both at the guitar and piano (if one is available at the venue) or keyboard if not which she will bring. She will require two microphones to be set up (one at each instrument).

For the guitar, Louise uses a fishman pick-up and prefers to mix this with output from an instrument microphone. Louise requires 1 x DI box.

If using a piano, please supply a suitable instrument microphone if necessary. If using a keyboard, Louise requires a mains power supply and left /mono, right unbalanced TS 1/4" jack outputs plus 2 x DI boxes. If using a piano, please angle this towards the audience so that Louise can see as many of the audience as possible.

Any questions please don't hesitate to get in touch on 07980 374971 or email music@louisejordan.co.uk.
